Guliyali Preschool Continuous Improvement Procedure

Guliyali Preschool vision statement

"We challenge to support all students to achieve their personal best."
 At Guliyali Preschool, we learn, teach and lead for excellence. Our aim is to extend and enrich children's learning during their last year before starting and through their transition to school. We encourage children to build on existing understandings and extend opportunities for learning new skills and developing interests.

Guliyali Preschool context

Guliyali Preschool is a Department of Education and Communities designated Preschool. We offer a service that is affordable and accessible to all families and promote and encourage parent/child/community participation. Our program follows the National Early Years Learning Framework with the ideals of 'Belonging, Being and Becoming' as corner stones of all our work with children. Our program is designed to empower young children, to help them celebrate diversity and enable them to create, experiment and develop understandings and skills through play. The aim of Guliyali Preschool is to extend and enrich children's learning during their last year before starting and through their transition to school. The role of all staff is to encourage children to build on existing understandings and extend opportunities for learning new skills and developing interests. Our classroom and outdoor environment are welcoming and well-organised spaces designed for play and investigation. The learning centres / play spaces are carefully arranged to promote inquiry based and active learning and are based on intentional learning outcomes expressed within the Early Years Learning Framework.

Our Principles, Practice and Outcomes

The five principles, which underpin our practice, are:

1. Secure, respectful and reciprocal relationships with children and families.
2. Partnerships with children, families, primary school and other professionals.
3. High expectations and equity.
4. Respect for diversity.
5. Ongoing learning and reflective practice.

Our practice is always: - Holistic - Responsive to children - Planned and play based - Filled with opportunity for intentional teaching. Physical and social learning environments have a positive impact on children's learning - Working to extend our own and children's cultural competence, valuing diversity in all forms - Providing for continuity in experiences and enabling children to have success. – Assessment for children's learning in each of the five identified learning outcomes.

The five learning outcomes we assess progress in and plan for are:

1. Children have a strong sense of identity.
2. Children are connected with and contribute to their world.
3. Children have a strong sense of wellbeing.
4. Children are confident and involved learners.
5. Children are effective communicators.

Guliyali Preschool planning process

Guliyali Preschool underwent Assessment and Rating in 2018 and the evidence gathered determined our overall rating as 'Exceeding' all 7 National Quality Standards.

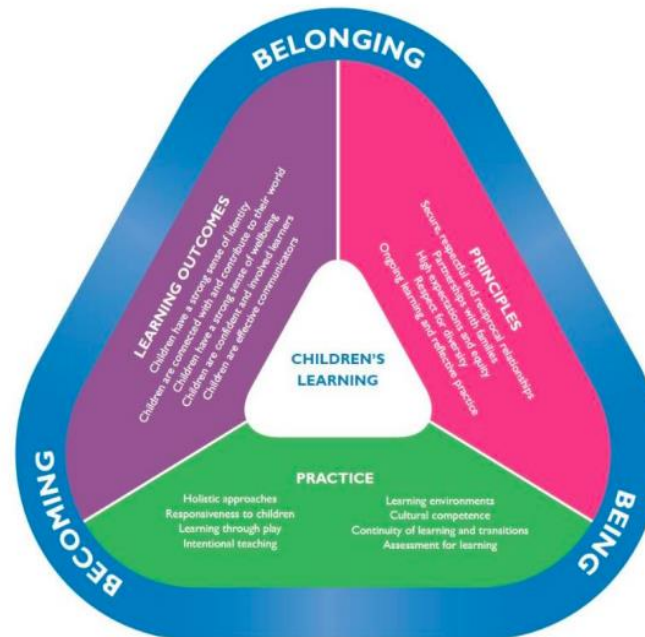

Further preschool planning has since been undertaken with input from the P-6 staff, families, children and community members. Feedback opportunities have included written surveys, meetings, telephone interviews, children, educator and parent information sessions, P&C meetings and informal discussions.

Preschool educators and executive team members evaluated the current programs and practices and examined all gathered data.

All gathered information has been evaluated and aligned to the Guliyali Preschool's Philosophy to determine the preschool's future goals, strategic directions and Guliyali Preschool planning priorities. This information has formed the structure of the following 2019-2020 Continuous Improvement Plan.

To ensure that our Quality Improvement Plan is a living document, the following schedule will be followed. All seven quality areas will be discussed, reviewed, critically reflected upon by using ACEQA's Critical Reflection tools and sample questions within the National Quality Framework, together with planning for current goals for improvement.

Educators will meet on a fortnightly basis with afternoon meetings held within the Preschool, 2.00– 2:45pm. The Nominated Supervisor, all Early Childhood teachers, School Learning Support Officers (SLSOs) and preschool supervisors are required to attend. Minutes will be taken at all meetings in the Preschool and uploaded onto Storypark. Progress notes that are identified during the meeting are added to the QIP by the Preschool staff at the end of that day or as soon as the preschool educator responsible for the quality area is able to do so in their RFF time. The Preschool teacher will meet weekly with the Preschool Supervisor to share and discuss agenda items such as new updates within the preschool, QIP strengths and goals, changes to the National Law or National Regulation, deal with any issues or concerns and further develop the school-preschool working relationship as a whole to drive continuous improvement. The preschool teacher, supervisor and P-2 Initiatives officer email regularly to ensure clear communication and an 'Exceeding' standard is maintained.

Quality Improvement Plan

Guliyali Preschool staff are dedicated to drive continuous change for improvement. As a P-6 school, Woy Woy Public School and Guliyali Preschool is guided by the School Excellence Framework (SEF) and the National Quality Framework (NQF). Educators make conscious efforts to align the school vision statement with the Preschool Statement of philosophy. These statements drive the work of our educators forward with purpose. As such, a whole-school approach is applied when reviewing the SEF and the Preschool Quality Improvement Plan (QIP).

After each strategic plan is implemented the preschool team review the Quality Improvement Plan by adding the completed strategic plan as a strength or an improvement plan in the QIP. After each section is reviewed by the Preschool team the QIP document is sent to the Central Coast P-2 Initiatives Officer Jess Lavers to provide feedback.

In the **annual review** of the Preschool QIP, the Preschool educators and Leadership team, engage in a self-assessment process, addressing all seven of the quality areas within the NQF, to ensure that:

- The National Law is met
- The National Regulations are met
- The National Quality Standards are met

Additional Support

The Guliyali Preschool team ensure that our service goes beyond the requirements of the National Quality Standard. We are committed to maintaining our Assessment and Rating outcome of 'Exceeding in all 7 Quality Areas'. We value the guidance and support that collaborative relationships offer.

Educators and the Preschool Leadership team are aware that support and advice is available from our local P-2 Initiatives Officers and the Department of Education Early Learning team through phone calls and Department of Education internal email. We will continue to use the expertise of these professionals to enhance our learning environment and build strong working relationships.
