

My New Preschool

Guliyali Preschool

Woy Woy Public School

Ms Buckley and Mr Betts are the principals of Woy Woy Public School. They make sure all of the children and teachers are safe and happy at school.

Mrs Williams is the preschool supervisor. She will often come into the preschool to see what we are learning.

These are the teachers at my preschool. Their names are; Miss Williams, Mrs Arnot and Mrs Kleppen.

My teachers will take care of me and keep me safe while I'm at preschool.

They will also play with me and help me to learn new things.

This is the gate into my new preschool. Here is where I say goodbye to my family and hello to my teachers and friends.

I have a preschool bag which I carry on my back. When I arrive at preschool I search for my name tag in the locker room. This is a special place where I leave and can find my bag at preschool.

I take a lunch box filled with healthy food and a water bottle to preschool. We eat morning tea and lunch at preschool. When I'm thirsty, I get myself a drink of water. If I need more water I can ask my teachers to fill my bottle up for me.

I have a hat to wear at preschool. I wear it when I play outside to protect me from the sun. I put sun cream on too.

I will meet so many new friends at preschool.
Sometimes, though, I might feel like playing on my own.

There are lots of different things to play with at preschool. Each day I choose what I want to do. I like to have fun and learn new things.

When I play inside, I can play in the home corner, build with blocks, read books or create something at the art and craft space.

Inside, the calming room is a place where I can go to relax my body and mind, especially if I'm feeling sad, angry or tired. This is a space where I am calm, gentle and quiet.

When I play outside, I can climb on the adventure park, ride bikes or play in the sand pit.

When play time finishes, I help pack away the toys, inside and outside. It's important to look after our preschool and keep it tidy.

We also have a pet rabbit called Pam, flowers, plants and a fruit and vegetable garden to help take care of.

Sometimes, the children and teachers come together in a group. This is a time to share our thought and ideas, read books and sing songs.

When I'm at preschool I look after myself and keep myself clean by using the toilet, blowing my nose and washing my hands.

My teachers can always help me if I need them.

I wash my hands with soap and water. I can sing a song while I wash my hands. I dry them with paper towel and put it into the bin when I'm finished. I'm very good at remembering to wash my hands. I make sure I wash all the germs away so I stay healthy.

On Wednesday's we go to the library in the big school. We can borrow books to take home and return the following week. It's important that I listen to my teachers so that I am safe in the big school

Some days we also visit the big school oval or the Bush Tucker Garden. The Bush Tucker Garden is close to the road and has a water pond, so I stay close to my teachers and always listen carefully.

When it is nearly home time, I pack my bag and put it on my back. I line up and get ready to be picked up by my family.

As I leave, I smile and say goodbye to my teachers and friends. I say, “Thanks for playing, see you next time.” When everyone has left, my preschool closes.
